## EXPERIENCE

### Estonian Defence Forces, Kuperjanov Infantry Battallion – IT Support

DECEMBER 2019 - MAY 2020

- Helped officers with various software/hardware problems
- Developed a React application to simplify logging radio communication

### Estonian Defence Forces, Cyber Command – UI Designer

AUGUST - DECEMBER 2019

- Used Adobe XD to design a large scale tactical map application used to coordinate large exercises all over the Defence Forces
- Placed second at Digiriigi Hackathon 3.0, where we created a PDF parsing app for the Estonian Road Administration to automate filling vehicle documentation forms

### Kühne + Nagel Tallinn IT Centre – Software Engineering Intern

JUNE - AUGUST 2018

- Used React to develop two applications tightly integrated with JIRA
- Provided an easy way for project managers and clients to get an overview of projects' budgeting and sprint progress

### Revismo 3D Studio – 3D Visualizer

AUGUST 2015 - DECEMBER 2016

- Used Cinema 4D to create photorealistic architectural renders
- Learned to work with tight deadlines

## EDUCATION

### Tallinn University of Technology – BSc in informatics

SEPTEMBER 2016 - JUNE 2019

## SKILLS

**Front-end:** React, TypeScript

**Back-end:** Node.js, Express, GraphQL, PostgreSQL

**Design:** Adobe XD, Figma, Photoshop

**Other:** Windows, macOS, Git

## SIDE PROJECTS

[Warehop](#): a simple, bare-bones inventory management web app based on cash-basis accounting aimed towards Estonian sole proprietors.

[Communication Diary](#): a web app I developed during my conscription to aid with logging military radio communication.

## LANGUAGES

**Estonian** – Native

**English** – B2
